

3-POINT HITCH BOOM MOWERS

RAISING THE BOOM.

CONSTANTLY RAISING OUR GAME.

*At Diamond Mowers, no job is done casually, and no work is unimportant. We build the toughest, most reliable, and safest heavy-duty equipment in the business. It's that simple. Every piece of Diamond machinery is born and raised in Sioux Falls, South Dakota, including our line of 3-Point Hitch Boom Mowers. Demand Better. **DEMAND DIAMOND.***

BUILT ABOVE AND BEYOND EXPECTATIONS

No matter what dimension or weight our equipment might be, it is always built with a heavy-duty, all-day attitude. Always. Our line of 3-Point Hitch Booms raise your capabilities and efficiency every single day they're in the field. These units clean overgrowth from fence lines, cut back overhead trees, handle CRP and terraces, ditches, waterways and more. 3-Point Hitch Boom Mowers mount on tractors with ease and dismount just as easily. Diamond uses premium cast steel pumps and motors in a fully self-contained hydraulic system, which prevents any cross contamination between the mower and tractor. Take down all manner of brush and various tree sizes, leaving behind a Diamond shine.

*Demand Value. **Demand Diamond.***

ROTARY VS. FLAIL: HEAD-TO-HEAD

There's no need to fight. Both our rotary and flail heads are champions in their fields. Which one wins for you just depends on your working environment, your needs, and your ultimate goal. Like choosing between a prize fighter and an Olympic wrestler.

The **ROTARY MOWER** is an overall faster cut for brush and some varieties of trees. It leaves a rougher cut than the flail's finer finish. Though it requires some added safety precautions, it can cost less to operate over the long haul.

The **FLAIL MOWER** offers a safer operating platform while providing a much more manicured and clean cut. Its higher quality cut will require a slower tractor speed. It's long-term costs will generally run higher than the rotary mower.

*Demand What's Right For You. **Demand Diamond.***

3-POINT HITCH BOOM MOWERS

AVAILABLE MOWER HEADS

40" ROTARY MOWER HEAD

- Cuts up to 4" diameter brush/trees
- Available on 14' STD and 16' STD
- Diamond proprietary Tri-Hex mulching disc provides greater inertia in tough conditions. *The Tri-Hex disc is covered by an unprecedented 5-year warranty.*

50" ROTARY MOWER HEAD

- Cuts up to 8" diameter brush/trees
- Available on 17' HD and 20' HD
- Proprietary Tri-Hex mulching disc and reinforcing ring

42" FLAIL MOWER HEAD

- Cuts up to 2" diameter grass/brush
- Available on 14' STD and 16' STD
- Protective bonnet for safer operation
- Flail knives less likely to propel objects

44" FLAIL MOWER HEAD

- Cuts up to 6" diameter grass/brush
- Available on 17' HD and 20' HD
- Protective bonnet for safer operation
- Flail knives less likely to propel objects

4-FUNCTION PROPORTIONAL JOYSTICK

- Improved ergonomics
- Increased mowing speed in tough terrain because of shorter operator reaction time
- Decreased operator fatigue
- Easier to install

All Diamond 3-Point hitch boom mowers come standard with 4-Function Proportional Joystick.
