ATTACHMENTS**

READY FOR WORK.

BUILDING THE BEST.

At Diamond Mowers, we build the best. By that, we mean the toughest, safest, and most reliable skid-steer / compact track loader products in the industry.

We've continuously enhanced our products with designed innovation and a keen understanding of the customer application. We don't build what we want, we build what you need – durable, dependable, and effective skid-steer products. With exceptional customer service and our strong reputation, we'll continue to build the best.

**DEMAND
BRILLIANCE**

LOOK YOUR BEST.

SKID-STEER FLAIL MOWER

Diamond's Flail Mowers provide a cleaner cut for a more manicured look.

Featuring self-cleaning, reversible knives, flail mowers are less likely to propel objects than rotary mowers or forestry mulchers. Attach and detach simply and easily to your skid-steer / compact track loader to add versatility and productivity to your existing asset.

AVAILABLE SIZES

75", 90", 102"

PRODUCT HIGHLIGHTS

FORESTRY MULCHER DISC

Diamond's disc acts like a flywheel to store energy. The energy used to cut and mulch comes from inertia, not hydraulic power alone.

HARDENED STEEL TEETH

Cut, Shred, & Mulch Material

- 44 hardened steel teeth on the disc act like an axe to slice into material
- 4 teeth fixed on the inside of the deck shell mulch material as the disc carries it through
- One tooth style for simple care and maintenance
- Teeth can be easily sharpened to increase efficiency and life expectancy
- Patented planer knives in the center of the disc eliminate any dead zone

Bolt On Tooth Holders

Bolt on tooth holders are weld-free to provide quick and easy maintenance in the shop or field.

Ready for your Application

Diamond's Forestry Disc Mulcher comes standard with two intake chute options. Pick which one is best for your application:

- ☐ **Narrow Intake Chute** – designed for single stem, taller trees without many lower branches
 - This chute features a hook to help feed trees and a ramp to scoop material already on the ground
- ☐ **Wide Intake Chute** – designed with an open throat to feed larger, bushier trees more efficiently

DEFLECTOR SHIELD

Dispersing Power

Equipped with a fully adjustable deflector shield to provide control over how material is distributed. As you raise the shield, the head becomes more productive and able to process material quickly. Lowering the shield helps to direct material to the ground.

The Diamond Difference

Unlike most competitors, Diamond's oil bath spindle only requires maintenance every 500 hours, or annually.

NO TIME *TO* WASTE.

SKID-STEER ROTARY MOWER

Diamond's Skid-Steer Rotary Mowers are ideal for large-scale brush clearing applications.

Attach and detach simply and easily to your skid-steer / compact track loader to add versatility and productivity to your existing asset.

AVAILABLE SIZES

60", 72", 84"

HYDRAULIC MACHINE CONFIGURATION

- ✓ LOW FLOW
- ✓ HIGH FLOW

CUT SIZE

UP TO 10"

← DIAMETER →

- ✓ GRASS
- ✓ BRUSH
- ✓ TREES

PRODUCT HIGHLIGHTS

TRI-HEX MULCHING DISC

Diamond uses a proprietary Tri-Hex disc to provide greater inertia in tough conditions. Our discs are 50,000 psi rated steel for unparalleled durability, and easy blade maintenance. Hex blade bolts and hardened inserts are used for the toughest blade retention in the industry. The Tri-Hex Mulching Disc comes standard with an unprecedented 5-year warranty – not that you'll need it.

ROTARY BLADES

Slice Through

- Three hardened steel knives 5/8" (16mm) thick
- Built to swing, allowing them to break away when in contact with rocks

DEMAND THE BEST.

- ✓ HARDENED STEEL BLADES
- ✓ 50,000 PSI RATED STEEL DISC
- ✓ 8 BOLTS FOR EASY DISC REMOVAL
- ✓ 5 YEAR WARRANTY ON TRI-HEX DISC
- ✓ 1 YEAR WARRANTY ON PARTS & LABOR

The Diamond Difference

Unlike most competitors, Diamond's oil bath spindle only requires maintenance every 500 hours, or annually.

ABOUT DIAMOND MOWERS

Founded in 2000, Sioux Falls, South Dakota based Diamond Mowers is the leading manufacturer of industrial mowing, mulching, and brush cutting equipment for the municipal, skid-steer and excavator markets. Our products include: boom mowers, rotary mowers, flail mowers and forestry mulchers for municipalities, contractors, and land owners. We entered the skid-steer / compact track loader and excavator attachment markets in 2013, and manufacture rotary mowers and forestry mulchers that attach to skid loaders and excavators - products ideal for small, and large-scale brush clearing operations. In 2017 Diamond Mowers was included in the Inc. 5000.
