

TRACTOR FLAIL MOWERS

FOR A MORE FINISHED LOOK.

Diamond's Flail Mowers provide a cut that's manicured and clean. As the toughest, safest, and most reliable on the market, you won't find a more precise piece of heavy-duty equipment.

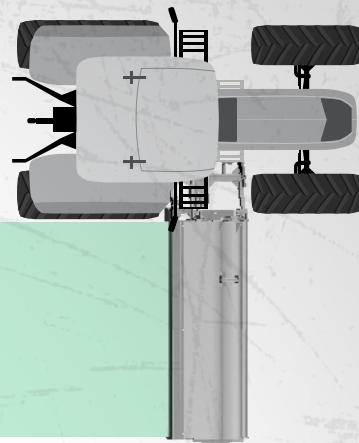

Every Diamond Flail Mower comes equipped with:

- Self-cleaning, reversible knives
- Replaceable skid shoes
- Adjustable roller height
- Both the discharge flap and protective bonnet shield protect the equipment, the operator and bystanders

Industry Leading Ground Roller

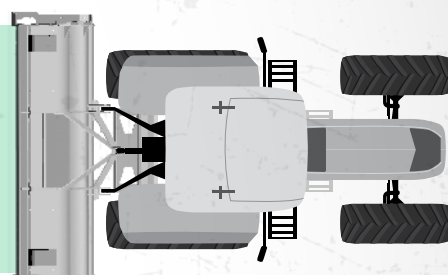

- Lubricated in a sealed oil bath, the ground roller requires no daily maintenance or greasing.
- The tapered ground roller edge keeps turns smooth without scuffing, while decreasing wear from road edges.
- Bearings are located inside the ground roller tube for added protection from contamination. This also allows increased clearance at the bearing supports, limiting material build-up at the edges of the mower.
- **LIMITED 2-YEAR WARRANTY**

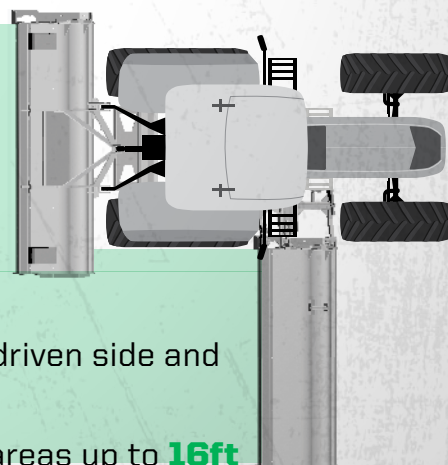

Side Flail

- Hydraulically driven
- Available in **60"**, **75"**, or **90"** cutting widths

Rear Flail

- 540 PTO Drive
- Cat II 3-Point Hitch
- Available in **90"** and **102"** cutting widths
- Available in center and offset models

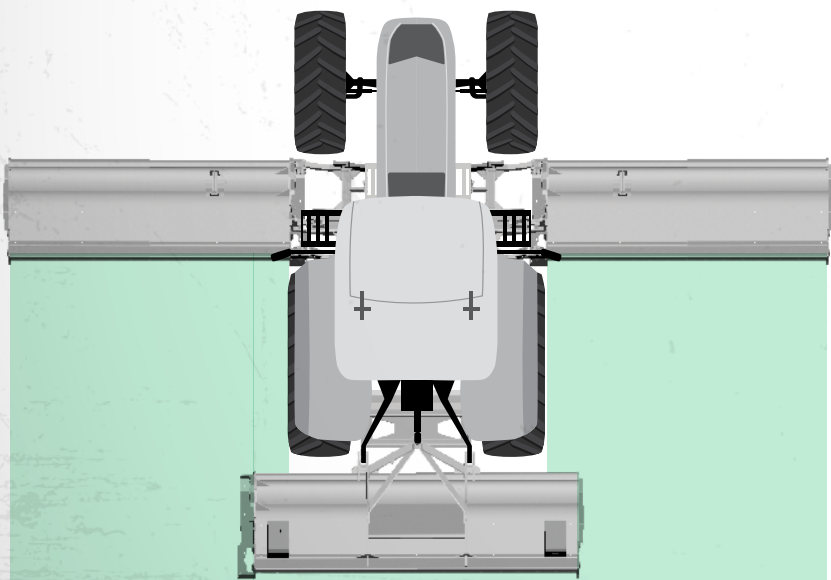

Twin Flail

- Hydraulically driven side and PTO rear
- Covers large areas up to **16ft**
- Highly efficient
- Offset option ensures overlap with side flail

TRADITIONAL TRIPLE FLAIL MOWER

Diamond's Triple Flail Mowers provide the **cleanest**, most **efficient** cut covering a large area.

Features include:

- Side flails available in **60"**, **75"** and **90"** widths
- Rear flail **110"** width
- Overall cut width of **17.5ft**, **19.5ft** and **22ft**
- 540 RPM PTO driven
- Independent side mower controls
- Available on Deere 6000E series tractors

POWER SWITCH BOX

CONTROL LEVERS

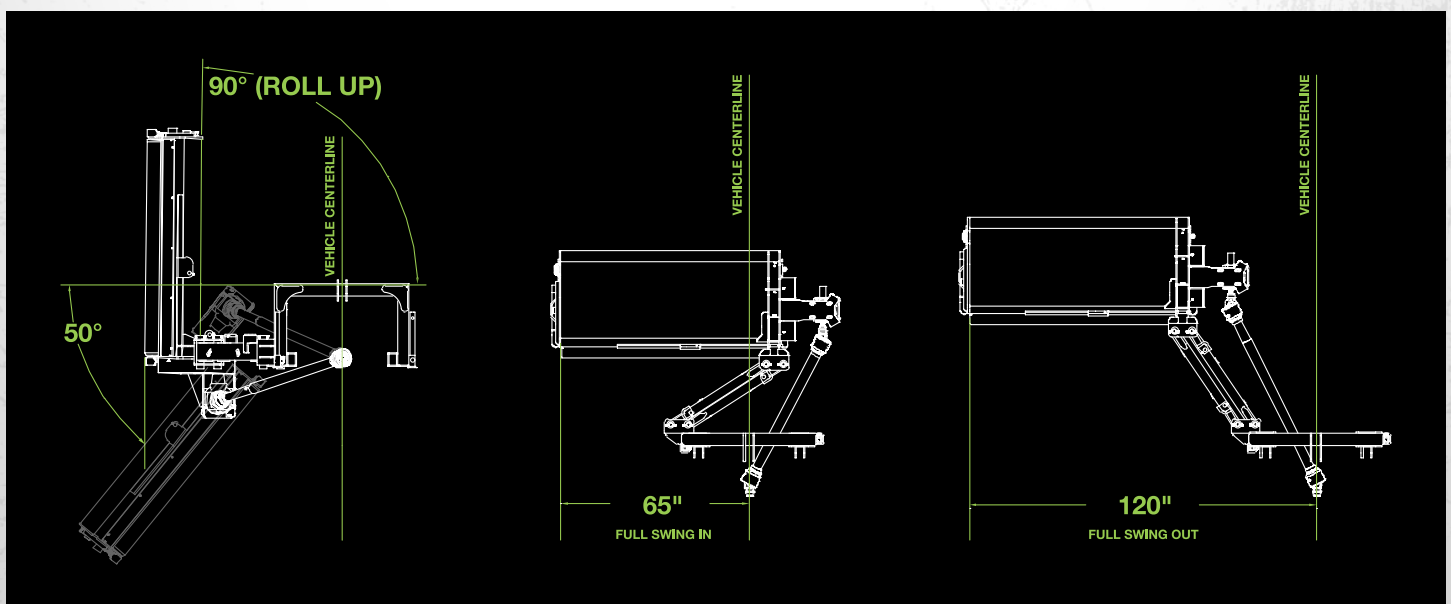

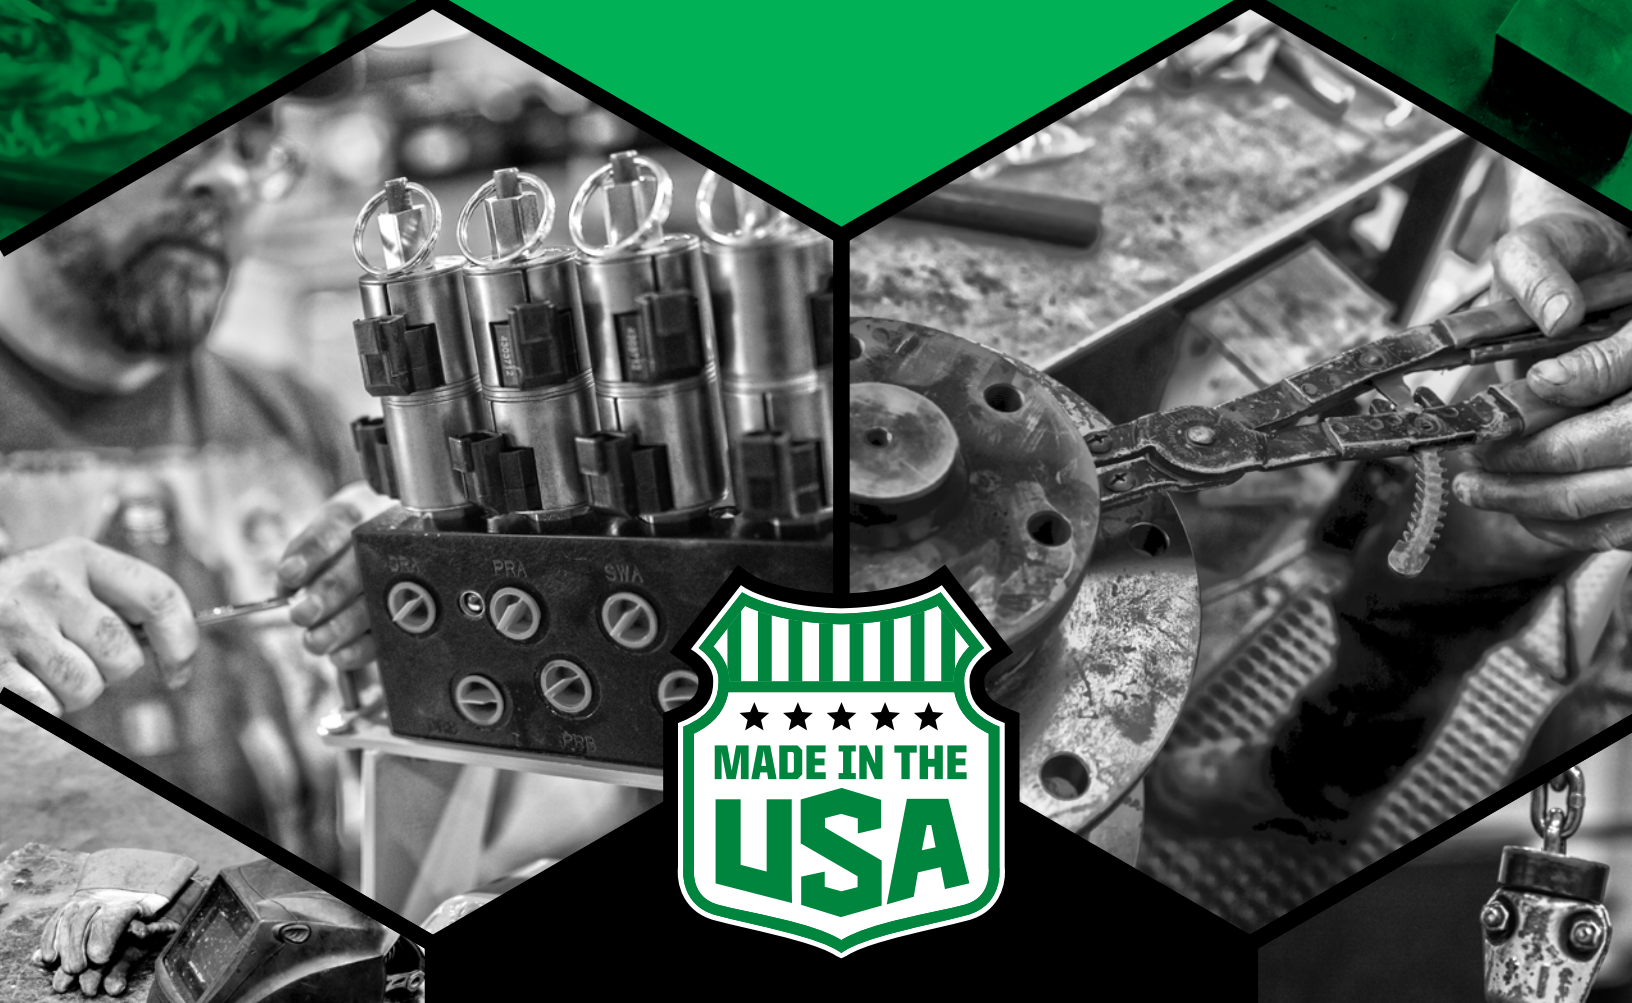

REAR SWING FLAIL MOWER

Ideal for road and irrigation ditch maintenance, this versatile attachment excels where frequent brush, rock and debris build-up occurs, such as old fence lines.

Features include:

- 540 PTO Drive
- Cat II 3-Point Hitch
- Available in **75"** cutting width
- Swings out past the rear tire on most tractors
- Mows at a **50° down** angle and **90° vertical** angle
- Cuts in hard-to-reach places with side shift and drop
- Able to run in standard or reverse rotation to match cutting conditions

BUILDING THE BEST.

At Diamond Mowers, we build the best. By that, we mean the toughest, safest, and most reliable products in the industry.

We continuously enhance our products with designed innovation and a keen understanding of the customer application. We don't build what we want, we build what you need – durable, dependable and effective attachments.

With exceptional customer service and our strong reputation, we'll continue to build the best.
